Big Thinking
Starts Here

Go on.
See for yourself.

YaleNUSCollege
Once upon a time, people thought that the Earth was flat. That mankind would never experience flight. And that the Internet was a passing fad.

Thankfully, someone thought otherwise.

Through the ages, the world has witnessed individuals curious enough to look beyond conventions and courageous enough to bring new thinking to age-old assumptions and challenges. These are the people who have changed the course of history, charting a better path forward for all humankind.

At Yale-NUS, we equip you to be that kind of big-thinking, history-making, game-changing ‘someone’.

A liberal arts education from Yale-NUS gives you far more than mere paper qualifications. Our goal is to ensure our students not only survive, but also thrive in our complex, changing world. And we equip them to do so with the knowledge, skills and aptitude to uncover fresh perspectives, drive change and forge bold solutions for today’s most pressing challenges.

Come see beyond the ordinary.
At Yale-NUS, we believe that the bravest, most game-changing ideas come about at the intersection of different perspectives and intellectual inquiry.

This is why we seek to bring a world of diverse viewpoints to you, and you to the world. Join us to gain new dimensions of knowledge, rich insights on culture and society, and the ability to create groundbreaking connections and solutions — in short, all you need to start thinking big.

Exceptional Curriculum

Embark on a learning journey less travelled. One that combines the best minds from the East and West, as well as the Social Sciences, Humanities and Sciences.

International Exposure

Go on adventurous and intellectual voyages of discovery both locally and abroad, and come back as a global citizen. 100% of our students have the opportunity to study and travel overseas as part of their learning journey.

Immersive Residential College

Experience a place where living and learning converge, as you live with a globally diverse community of thinkers. Come together at cafés, creative spaces and common rooms within our three Residential Colleges.

Put it all together and you have a big-thinking education designed to set you apart.
How are big ideas born?

From a wealth of knowledge that leads to deeper questions about our changing world, thinking that flows freely across diverse fields, and practical know-how to make big ideas come to life.

3 Components of a Big-Thinking Education

- **Common Curriculum**: 31%
- **Electives**: 35%
- **Major**: 34%

The Yale-NUS curriculum is designed to offer rigorous training in your chosen discipline as well as a firm grounding in subjects that are key to understanding our world.

At the heart of a Yale-NUS education is a drive towards inquiry. It’s not about having all the right answers. It’s about asking questions, digging deeper and seeing different dimensions. This will be a fundamental part of your learning experience here at Yale-NUS. After all, big thinking only comes from big questions and robust discussions.

Curriculum as of June 2017
COMMON CURRICULUM

Featuring the timeless ideas of human existence, our Common Curriculum is the cornerstone of the Yale-NUS education. Over two years, you’ll explore a diverse range of multidisciplinary subjects across four fields of study — from those that have already piqued your interest to those you’ve never imagined exploring.

The Common Curriculum not only lays the foundation for your major, it strengthens ideation by grounding you in the principles of academic inquiry and problem solving. More than that, the broad-based knowledge you gain will set you apart in thinking and reasoning, and lead to the kind of fresh ideas that every employer seeks and values.

Building a Foundation of BIG THINKING

GREAT WORKS
Find the intersection between ancient philosophers like Confucius and Aristotle, and discover how their ideas shaped society. Then explore the legendary characters from epics such as The Odyssey and the Ramayana.

SCIENCES
Get ready to take on 21st century science as you tackle age-old puzzles and contemporary issues, all to arm you with the skills necessary for scientific research in today’s cutting-edge discoveries.

INDIVIDUAL & SOCIETY
Enter the minds of thinkers such as Marx and Weber and examine communities, societies and the human condition through the ages. Add to that skills for empirical and social science research, and you’ll walk away with a deeper understanding of the modern era.

INTER-DISCIPLINARY COURSES
Put what you’ve learnt to the test by taking on the most pressing problems of our times. Yale-NUS interdisciplinary courses will teach you to approach these challenges from 360° by helping you discover the intersection of multiple disciplines.
**DO WHAT YOU LIKE MOST.**

Big thinking is powered by a passion for your field of study. Come discover yours with us.

Yale-NUS offers a choice of 14 majors and ample time to choose what you want to specialise in. In fact, students select their major at the end of their second year — that’s only after they have experienced the diversity of our Common Curriculum.

There’s also the option of selecting a minor and exploring alternative disciplines. And during your final year, you’ll engage in a capstone project — this is your opportunity to individualise what you’ve studied and expand your research experience at Yale-NUS.

Curriculum as of June 2017
Create Your Own Learning Journey.

Yale-NUS academics are all about exploration. Beyond the Common Curriculum, students venture into areas of intrigue through a myriad of electives and individual selection of majors.

Widen your horizons for big thinking with your personal pick of electives, chosen from a broad assortment ranging from Politics to Physics. Then, with exposure from electives and the foundation of the Common Curriculum, you’ll have a deeper understanding of what truly interests you before diving into your choice of major.

Along the way, expect to rethink your preferences, uncover your interests and discover your true calling.

"Before coming to Yale-NUS, I tried my hand at Psychology and Sociology. When I took an introductory Anthropology course, I realized I had found my true passion."

- Jamie Buttelaar
Singapore/Netherlands

"We discuss Nietzsche over breakfast and joke about the Durkheimian collective effervescence in the hallways. These small quirks make for an incredible educational experience."

- David Chappell
United Kingdom

"I initially wanted to major in Economics. However, after an Environmental Studies class, I now hope to pursue Economics while also focusing on environmental policy making."

- Pareen Chaudhuri
Singapore

"I took a Computer Science class as part of my Common Curriculum, where I was introduced to basic programming. I immediately fell in love with it and it has since become my minor."

- Jolanda Nava
Italy

"My mind was set on Global Affairs as a major. However, after a handful of electives, spending time with professors and experiencing new material, I realized that Urban Studies is where my passion lies, and where I can best apply myself."

- Subhas Nair
Singapore
“Normally at a university it would be expected that faculty shape the courses and students consume them, and that’s the end of it. But here at Yale-NUS, we get to contribute to the courses; everyone is responsive, and everyone feels that they can learn something from everyone else, professors included.”
- Michael Moore-Jones
New Zealand/United Kingdom

“I’ve never seen such an intense level of interactivity between students and faculty both inside and outside the classroom. My classmates are from all around the world, and everyone is interested in just about anything and everything, so you’ll never find yourself bored in this college. The kicker? Professors are just as game as the students are!”
- Christopher Tee
Singapore

“A scholar of the Italian Renaissance who is fluent in Classical Chinese.

An Indian economist who has taught for years in the Netherlands.

A Scottish statistician devoted to studying dengue fever incidents in Singapore.

These are just some of the brilliant minds and colourful personalities you will meet here at Yale-NUS College, many of whom have a track record of bold innovation and big ideas you can learn from.

They aren’t just celebrated leaders and experts in their individual fields — they’re also mentors who will inspire you to take that leap of faith to explore the great unknown.

“…”
INTERNATIONAL EXPOSURE

Every Yale-NUS Student, A Global Citizen

Tomorrow’s biggest thinkers and leaders will be the ones who are able to thrive across different cultures and locations. We believe in this so strongly that international experiences are a key tenet of the Yale-NUS education. In fact, every Yale-NUS student is guaranteed the opportunity to travel overseas.

Our Centre for International and Professional Experience (CIPE) brings you an exciting array of local and global opportunities.

Go beyond the classroom during our Week 7 Learning Across Boundaries programme, intern at top international firms, find out how to make community impact at the NGO Bootcamp or go abroad for a semester — expect to experience it all at Yale-NUS with the guidance of your very own CIPE advisor.

ARE YOU READY TO TAKE OFF?

NGO BOOTCAMP

WEEK 7

INTERNSHIPS

For more information, visit: cipe.yale-nus.edu.sg/
The More You Experience, The Bigger Your Ideas

Think learning is all about lectures, classes and assignments? Think again. A Yale-NUS education is jam-packed with memorable learning experiences beyond the classroom, campus and even the country.

With countless options, Yale-NUS students can expect global insights, practical life skills, leadership development and work experience in the real world, all across the world. Not sure where to start? A CIPE advisor will work directly with you to choose experiences that suit you best. Then, buckle up for your own experiential learning adventure.

WEEK 7: LEARNING ACROSS BOUNDARIES
Explore themes from the Common Curriculum first hand during Week 7 of the first semester with our Learning Across Boundaries programmes. Leave the classroom behind and head out to locations locally and abroad to experience what you’ve learnt come to life and study issues in a broader context.

INTERNSHIPS
KPMG, Amnesty International or the Peggy Guggenheim Collection. Find yourself in these leading organisations worldwide for invaluable work experience and global exposure. Spanning 8 to 10 weeks, our full-time internships range from corporate to public interest sectors in both Singapore and overseas. Or choose the Mystery Internship, where you’ll be informed of your workplace and its location just days before the programme starts.

NGO BOOTCAMPS
Learn more about social impact and public interest work in this five-day training and internship programme administered by Yale-NUS. Facilitated by corporate and non-profit experts, our NGO Bootcamp will equip you with the knowledge and skills to make a difference in Singapore and the world.

SEMESTER STUDY ABROAD
Take your pick of subjects to dive deeper into, whether it’s art history in London or astrophysics in Chile. Or acquire fluency in a foreign language by immersing yourself in an environment of native speakers. Argentina, China, Greece, Spain and Taiwan are just some of the countries Yale-NUS students have studied in.

SUMMER RESEARCH PROGRAMMES
Get foundational laboratory and research experience. Interns work in the laboratories of Yale-NUS professors for 8 to 10 weeks during the mid-year break, conducting research activities or participating in field research.

For more information, visit: cipe.yale-nus.edu.sg/
DESTINATION:
Broader Perspectives, Widened Horizons

Out of their comfort zones, they dreamt, ventured out and explored. And so began a lifetime of discovery.

Here are just a few of Yale-NUS students’ experiences abroad.

ARGENTINA
"I had conversations with Argentine college students over meals and attended a public screening of one of Argentina’s World Cup matches at a big plaza. I really appreciate the opportunity to get to know the city in a more intimate manner.”
- Kinnari Sahita
Singapore

FRANCE
"Living in Paris for a month while completing my French language programme has been an extraordinary experience. This vibrant city has completely changed my outlook on happiness and the things that matter the most.”
- Tamara Burgos
Bolivia

CHINA
“Our discussions with Shanghai University professors and prominent cultural commentator Wang Xiaoming, the exchange with the Beijing Film Academy and a film by Han Chen have all profoundly influenced the way I now understand China and Chinese culture.”
- Evan Asava Aree
Canada

YALE UNIVERSITY, USA
“The welcome by Yale and Yale-NUS staff over on the other side of the world made me realise just how beautiful and close-knit a community we are, and why we should all cherish that sense of closeness.”
- Tinesh Indrarajah
Malaysia

SINGAPORE TO VIETNAM
“Four of us cycled from Singapore to Hanoi over 70 days, covering roughly 3,500km. We received generous support throughout our journey and returned to Singapore with our findings and stories, which we shared through a presentation and an exhibition.”
- Daniel Soo
Singapore

LAOS
“I got a chance to try out things I would otherwise never get to do. Organising a rugby championship here in Laos was a great and challenging opportunity to learn about the kind of work that suited me most!”
- Lauren Höllge
Czech Republic

THAILAND
“I’ve been assisting a professor with his research on the Mekong River. Despite the Mekong’s uncertain future, I’ve been swept over by the people’s incredible warmth, dedication, and spot-on knack for humour.”
- Graham Link
United States of America

CZECH REPUBLIC
“The workshops in Prague have been rigorous, and I’ve thought deeply not only about the craft of writing, but also what it means to write. Prague is the place to be challenged — I’ve been inspired by the underground, the political and the avant-garde here.”
- Raeden Richardson
Australia

Get On Target for a Big-Thinking Future.

Fresh perspectives. Broad-based thinking. The dexterity to go beyond conventions, cross fluidly between disciplines and forge new solutions. This is what you will gain with a liberal arts education at Yale-NUS and what will serve as the currency for your success in a constantly changing world.

Countless CEOs, entrepreneurs and innovators — including American Express CEO Kenneth Chenault and YouTube CEO Susan Wojcicki — have credited their liberal arts backgrounds for giving them a head start in their careers. Today’s employers are looking for the next big-thinking game-changer to add value to their business.

“On my first day, I thought I had walked onto the set of ‘Project Runway’ — the office comprised of the showrooms of various brands under the company. My co-workers are great, the working environment is dynamic and everyday I work on something different. I am certainly bringing lots of knowledge back and will never forget this experience!”
- Eilson Ong, Singapore Interned with Marc Fisher Footwear

“I am learning all I can about the finance industry. My biggest takeaway? That a bank is way bigger than what we might think. Take the digital project that I am working on — we have to coordinate with a guy working on this project in London, as well as the tech guys in the US. Think of the time zone differences!”
- Luke Ong, Singapore Interned with Citibank

“I’ve been working as a business development intern for Coursera. The best part has been getting to work closely with my boss. I am really enjoying learning the intricacies of international business and market development from her!”
- Sanjana Tadepalli, India Interned with Coursera

“One day I’m prospecting donors and writing up research for a campaign. The next I’m headed for a senate committee hearing. And throughout it all, I’ve been really fortunate to be able to do work that I believe in — work that goes towards helping people.”
- Matthew Borden, United States Interned with The Story of Stuff Project
The World, Right Here on Campus

No need to get on a plane to gain global exposure. International experiences start the moment you step onto campus.

Yale-NUS offers a globally-diverse learning experience like no other. Whether you’re in class, hanging out in your Residential College or sharing a meal at the dining hall, you’ll always be surrounded by classmates and faculty from every part of the world.

It’s diversity by design. We believe that a thriving intercultural community stimulates diverse conversations in and out of the classroom, richer exchanges and, of course, bigger ideas.

Hello • 你好 • Zdravo • Bok • Ahoj • Hei • Bonjour • สวัสดี
Labas • こんにちは • Olá • Ciao • Zdravo • Hallå • Namaste
Xin Chào • Salve • Salom • Merhaba • 안녕하세요 • Helo

GLOBAL STUDENT BODY

Whether you are from the city of Barcelona or the countryside of Mongolia, you’ll find students at Yale-NUS from more than 40 countries who will broaden your horizons with their own experiences.

DIVERSE FACULTY

Internationally trained and globally recognised, our faculty hail from Australia, Canada, Hong Kong, India, Kenya, Malaysia, Poland, Russia, Singapore, Spain, Taiwan, the United States and more.

INTERNATIONAL GUEST SPEAKERS

A Nobel Peace Prize recipient from Egypt. An accomplished travel writer from the United Kingdom. An American poet born to Filipino and Indian-Malay parents. A Nobel Prize in Physics recipient from Australia. These are just a few of the guest lecturers who have visited Yale-NUS.

For more information, visit: admissions.yale-nus.edu.sg/discover/
IMMERSIVE RESIDENTIAL COLLEGE

Live and Learn

Why limit your learning to lesson time? Our students are constantly exposed to opportunities to widen their horizons, rethink assumptions and cultivate their ability to think big. Consider it the Yale-NUS way of life.

Yale-NUS extends learning beyond your professors, textbooks and classrooms, to every interaction you have in your living spaces. In fact, we believe so much in immersive learning within our Residential Colleges that each student lives on campus for all four years.

This is all part of the tradition of holistic education, where academic, social, cultural, athletic and artistic lives come together for a truly rich learning experience.

Ready to find your home here?

Never a Dull Moment

John Reid

John was born and raised in South Africa and studied for two years in Italy before coming to Yale-NUS. Since arriving, John has developed a taste for Singaporean food (including that pungent wonder durian!).

07:45 AM
Already? I just closed my eyes, but it’s now time to leave this sweet haven of slumber!

Lishani Ramanayake

Originally from Sri Lanka, Lishani likes poetry, group hugs and tea. She hopes to have a career in International Law and in her free time watches way too much slam poetry.

08:34 AM
Breakfast! Fun fact: I had never tried a peanut butter toast before coming to Singapore!

10:30 AM
I help out with making name tags for an upcoming Admissions event. All part of my Student Associate position with the Admissions team.

11:00 AM
I’m at a talk by Nobel Peace Laureate Mohamed ElBaradei. We have at least one such talk by notable personalities nearly every week.

12:02 PM
Lunch time! My friends and I talk about the latest production that their theatre group, The Fifth Wall, is planning.

12:00 PM
It’s Yale-NUS Wellness Day, so I’m manning our ‘Community That Cares’ booth. Like many student organisations here, ours came from a casual conversation with friends about the need for peer listening/support programmes on campus.

01:05 PM
Blood donation is important to me. After replenishing my veins with chocolate milk and raisins, I leave the hall with a spring in my step.

01:50 PM
I arrive at Japanese class. Everyone practices short dialogues, and we laugh a lot at unintentional grammatical humour.

02:58 PM
I run into Simonas, Holly, Tiffany and Jay—anwy to class. They’re discussing tonight’s debate: Yale-NUS made it into the finals of the NUS Inter-Collegiate Debate Championship!

03:00 PM
Student organisation meeting! We are planning to set up photo booths for foreign workers in Singapore to send photos home to their families.

03:30 PM
I grab a quick dinner before I head up to my room to finish my Philosophy and Political Thought essay. I’m exploring the idea of unaided reason in Hayy ibn Yaqzan.

04:14 PM
I head to the 24-hour Starbucks at UTown to finish off some essays. The best part of working there is the view.

06:32 PM
I catch up with my friend XI Mhs, who shows me the map he is drawing for his World History class (a breakdown of languages in the Parthian empire).

06:30 PM
What is sleep? My friends Liam and Cass invade my room to do our literature readings, but end up spending more time on Buzzfeed and YouTube.

09:28 PM
I have readings to do. For Philosophy and Political Thought, we are reading essays on whether Confucianism is compatible with democracy.

11:34 PM
The curtains of sleep gently close on my half-finished thoughts.

“Boring” is not a word often heard around here. With on-campus living, a plethora of clubs and societies and everything you need within reach, you’ll find there’s always something happening every day, at every moment, for every person.
Step into a World of Learning.

Lasting friendships. Strong support. Diversity. Fun. And world-class facilities — all in one place. Yale-NUS Residential Colleges are uniquely self-contained and designed specifically to make college life endlessly enriching.

Expect dynamic group discussions over dinner with your professors. Engage in lively debates with classmates in one of three dining halls. Make new friends while doing laundry. Or spend mornings learning a new sport from a roommate from across the globe.

They’re all possible the moment you move in.

GUIDANCE AT EVERY STEP OF THE WAY
Campus culture at Yale-NUS is exciting, nurturing and supportive. And we have the people to make sure of it. Each Residential College has a Rector and Vice Rector who live in the College. The Rector watches over the wellbeing of students as well as the College’s social, cultural and educational life. The Vice Rector coordinates community-building events and provides support and advice to students on an individual basis.

PLAY, EXPLORE AND DISCOVER
Shoot hoops after class at the Multi Purpose Hall. Get your om on with neighbours from across the globe at a yoga session. Bring on the laughs with our Improv Comedy Conglomerate, then swing by the Investment Group to gain some financial chops. Love to sing? Belt it out with the Singer’s Guild. Or if you prefer to be the voice of your college mates, step up and join the Yale-NUS Student Government. There’s something to add colour to everyone’s experience at Yale-NUS.

WELCOME HOME
Each student will be assigned to one of three Residential Colleges — Saga, Elm and Cendana — and live in single rooms within a suite. Open housing is available and we’ll make sure your immediate neighbours come from diverse backgrounds — all so you are exposed to rich diversity right from Day 1.

WORK SMART
The Learning Commons are equipped with digital resources and round-the-clock connectivity, so you can work smarter and collaborate better.
Some call Singapore the Little Red Dot. But beyond its humble size, the city-state brims with big thinking, bold innovation and a uniquely cosmopolitan outlook. You’ll be right smack in the centre of it all at Yale-NUS College.

Big Thinking Starts in SINGAPORE.

Step beyond campus and the mind-opening experiences keep coming. An international hub for many sectors, Singapore is a recognised gateway between the East and West, where you can expect to be exposed to different cultures and influences.

Throughout the year, international leaders and the brightest minds gather here, putting you at the confluence of the world’s most cutting-edge ideas.

Add to that a city abuzz with arts and cultural happenings year-round, an array of delicious food even after midnight, and, surrounding the tropical island, the rich history and traditions of Southeast Asia.

The fusion of culture and thought exists in Singapore just as strongly as it does at Yale-NUS.

Be at the heart of Southeast Asia.
Many international conferences, performances, talks and events are hosted in Singapore. Join us, and you won’t have to miss them. Or easily take trips to Asia’s most unique heritage and cultural sites. Just imagine weekend trips to Indonesia, Cambodia or Bhutan!

Experience the island’s diversity.
A blend of nationalities, cultures and religions, Singapore boasts concentrated cosmopolitanism and multiculturalism. See for yourself how this eclectic mix of people and lifestyles come together in one diverse yet cohesive community. Better still, jump right in and be a part of it!

Expose yourself to global opportunities.
A meeting place for international trade, tourism and countless other sectors, many major corporations have chosen to operate from Singapore. For students, this means excellent internship and employment opportunities are always within reach.
Cross Over to a Different Kind of Education.

Yale-NUS College promises a learning experience that will widen your horizons, enrich you as an individual, and equip you with the knowledge, aptitude and skills that will set you apart in our complex, changing world. If that is the kind of education that appeals to you, we’d love to receive your application.

We practise holistic admissions — this simply means we are interested to find out more about the multi-faceted you. Your academic performance, as well as your interests and hobbies, are all equally important to us.

ARE YOU:

Up for a challenge?
Academic life at Yale-NUS will encourage deeper and broader thought than you’ve faced before.

Open to new perspectives?
Part of the learning experience here will require you to test and expand your boundaries of knowledge, take on new experiences and stay open to an exchange of ideas.

Energetic and resourceful?
Yale-NUS students are challenged to take advantage of opportunities and multiply them for future generations of students.

Community-minded?
Both in class and through our Residential Colleges, we foster a community of learning — one that we want every student to play a role in.

If this sounds like you, we invite you to join us!

HERE’S A TIP:
WE VALUE CURIOSITY ABOVE CUT-OFF POINTS
There really is no magical formula for a successful application. We are interested in you as an individual — the way you think, and why you think the way you think.

Our goal is to build a diverse, vibrant and intellectually curious community of learning. And nurture students who want to make a difference in the world with bold ideas, fresh perspectives and big thinking. If that is you, come join us.

Yale-NUS offers two rounds of admissions, with application deadlines on:
15 January 2018 • 20 March 2018

To apply, log on to: admissions.yale-nus.edu.sg/apply
More Ways of Starting Your Journey of Big Thinking

Everyone deserves a great learning experience. Yale-NUS will remain accessible to all talented students regardless of economic background.

ACADEMIC YEAR 2017/2018

ANNUAL SUBSIDISED TUITION FEES
- Singapore Citizens: $19,500
- Singapore Permanent Residents: $27,300
- International Students: $41,750

RESIDENTIAL COLLEGE FEES
For $7,980 per year, students will receive a single room and 19 meals a week at the Yale-NUS dining hall facility.

Fees are cohort-based and are fixed for each cohort from the year of admission until graduation. National Servicemen in Singapore will pay the fees relevant to the year they accept Yale-NUS’ offer of admission. The annual tuition fees for international students are inclusive of a 7% Goods and Services Tax (GST).

TUITION GRANT
Prices are indicative of students electing the Tuition Grant Scheme (TGS). The TGS is offered by the Government of Singapore in order to defray the cost of a Yale-NUS education and requires three years of work with a Singapore-registered company upon graduation. Singapore permanent residents and international students who do not wish to take up this subsidy are required to pay a supplementary fee of $17,800 per year.

More information available at: admissions.yale-nus.edu.sg/afford/#tuition-and-fees

FINANCIAL AID AND SCHOLARSHIPS
Yale-NUS is committed to offering financial assistance to provide access for the most talented students. Admission is need-blind, which means financial resources are not considered in the admission process.

All applicants are considered for merit scholarships, given in recognition of academic and personal excellence. Need-based study awards are offered to ensure all students, regardless of financial circumstance, can be a part of Yale-NUS. The need-based financial aid application will be available during the admission process.
Yale-NUS Majors

Anthropology  Arts & Humanities  Economics  Environmental Studies
Global Affairs  History  Life Sciences  Literature
Mathematical, Computational & Statistical Sciences  Philosophy  Physical Sciences  Philosophy, Politics & Economics
Psychology  Urban Studies
